WHAT IS RENTAL-MAINTENANCE?

Thanks to Elis's rental-maintenance service, you can focus on your core business while retaining control over your budget.

We will work with you to assess the products and services your business requires

We supply workwear, linen, mats, washroom and pest solutions

1

2

There is no upfront investment, all items are purchased by Elis

giving you total control over your budget.

5

Deliveries and pickups scheduled to meet your business' needs

Our service agents, directly employed by Elis, assist you with all your day-to-day service requirements including: maintaining washroom supplies and mat exchange.

4

Personalised service

Packages are tailored to your business needs with a dedicated *Customer Service Team* to support you.

3

Maintenance of your items

Items serviced at our plants are laundered to the highest infection control standards.

All plants are ISO 9001 certified.

Benefits

- Peace of mind and time saved
- Cost savings
- Sustainable development
- Hygiene and quality

92%*

of Elis's clients feel that our rental-maintenance service simplifies their everyday lives

BENEFITS OF OUR MATS SERVICE

Professional mats capture dirt and moisture keeping your floors cleaner for longer.

Why choose a rental maintenance service?

Research shows a mat generally becomes saturated and **ineffective after 15 days**, Elis provides a weekly service to ensure your premises stays clean and your **floors remain safe**.

An industrial wash is the only way to deliver a hygienically clean mat – using a Hoover, water jet or washing machine does not remove embedded dirt.

850,000+

mats delivered each year to Irish customers

75%

of dirt and dust comes from the soles of shoes

Well maintained mats reduce cleaning time by

44%

80%

of dirt can be captured by our standard mat

Our ultra absorbent mats capture:

>  **Water** 5 L/m²

>  **Oils** 1.5 L/m²

>  **Particles** 5.5 kg/m²

Personalise
our mats to reflect
your image

Hygiene guaranteed
by industrial washing to
the highest hygiene
standards

Different ranges available
to meet all your needs

Replaced regularly
so visitors always receive
an optimal welcome

LOGO MATS

We can create bespoke designs that promote your brand identity and brand messaging. Strategically placed mats can be used as a highly effective communication tool. Our app allows us to *virtually* place your proposed mat in situ so you can visualise how it will look in the chosen location.

Outdoor Scraper Mats (Plain or with Logo)

- › Particularly effective against heavy soiling such as dirt and clay. The backing of these mats is cleated with drainage holes. Your mat can be produced without an edge for recessed areas if required.
- › Outdoor Mats can incorporate a logo to communicate your message to your customer as they enter.

Ergonomic Mat

An ergonomic mat is the most appropriate solution for standing workstations. Created using high density moulded rubber and foam rubber, the design minimises the risk of musculoskeletal disorders by absorbing external vibrations and the users weight.

The ergonomic mat:

- › Relaxes the arch of the foot
 - › Improves blood flow
 - › Provides thermal insulation
 - › Reduces fatigue
 - › Minimises back, leg, joint and foot arch pain
-

FUSION: AN ELEGANT WASHROOM RANGE

The modern and sleek design of the FUSION range creates a truly unique washroom aesthetic. Designed by renowned Danish designer Knud Holscher, the collection comes in 10 colours options, supporting your brand's identity.

CLEANING

Elis have partnered with Europe's leading professional microfiber manufacturer to produce a cleaning range that promotes efficiency and effectiveness.

Using microfiber mops and cloths rather than cotton enhances cleaning performance.

63%

Microfiber is proven to be more effective in removing dried in stains than its cotton equivalent.

71%

Efficient cleaning: reduces bacteria by up to

creating safer work spaces.

8x

lower instances of recontamination when using microfiber rather than cotton.

50x

A microfiber mop emits less particles than its cotton mop equivalent.

These microfiber mop heads can absorb up to one litre of liquid and have colour tabs for zone cleaning. The zigzag stripe increases the effectiveness of this ultra absorbent scrubbing pad.

Mop heads and cloths are laundered using net bags which are assigned exclusively to your account and barcoded, ensuring **your stock is returned to you** once it has been laundered.

Telescopic and ultralight, ergonomically designed for unparalleled comfort while cleaning.

Cloths are treated with silver ions which increase protection from bacteria, available in different colours for zone cleaning.

Elis Pest Control offers complete pest control solutions adapted to the specific needs of the hospitality sector.

Why choose Elis Connect

Your Business Partner

Elis Pest Control combines **innovation with expertise**, we offer a nationwide service with expert technical support and dedicated maintenance teams with over **30 years' experience** providing pest control to Irish businesses.

A Greener Solution

ELIS CONNECT offers **effective non toxic pest control** that supports a safer workplace while protecting our indigenous wildlife and **reducing your Scope 3 Emissions**, thereby supporting you CSR goals.

24/7 Monitoring

ELIS CONNECT offers your premises 24/7 pest control protection; our unique sensor system provides **constant surveillance** of your site, not just during scheduled service calls.

On-line Site Reports

Our **on-line portal** provides a single location for your pest control inspection reports with detailed catch analysis, automated E-Inspection reports, and an overview across all sites instantly and remotely where appropriate.

Quicker responses

Elis Connect sensors note changes in pest activity in **real time**; providing us with a site overview which allows interventions to be activated **before an infestation is noted** at bait boxes or by staff. **Early responses reduce the chance of infestations** and reduce the risk to your staff, customers and business.

Support when you need it

Our Service Control Department are available should you have any queries regarding ELIS CONNECT or any other of our Pest Control services – please contact 01-458 7722 or e-mail ie-pestcontrol@elis.com
